

**IN THE SPECIFICATION:**

**Please rewrite** the paragraph at page 8, line 22 to page 9, line 1, so that it reads as follows:

The PCs 30 are connected to the in-house agency system 20 via the LAN 25 and can be connected to the Internet 50. And the reservation system 10 is also connected to the ticket booking and issuing terminal 23 (which may be called simply the “issuing terminal” for the sake of brevity) of the in-house agency system 20 via the dedicated line 40, and has a function of accepting booking requests for plane tickets from the PC or the like via the Internet 50.
